PRINCIPAL'S DESK

Knowledge is the king of education. As a principal of DAV, I feel proud about the education system, we inculcate in our students in this institution.

We believe that one's inbuilt strength is the tool to overcome one's weakness and this strength transforms one into a new being. Therefore, we create various platforms through activities and competitions and our passionate teachers keenly observe the interest of the students, encourage them in their interest and also motivate them towards new learning.

We also believe that we are learners in this learning community and we are working continuously in making our students self-reliant and empowering them to make a great contribution to the nation. We are very thankful to our wonderful parents who have placed trust in us and provide constant support towards our goal to create insightful future generation.

With warm wishes and God's blessings
Mrs. Malini Ashok, Principal
